

Free Workshop for Software Developers

Extend your solution to the trading, logistics and finance industries

with open source technologies for document exchange!

Are you facing the problem in providing a total supply chain solution to your customers? Do you want to get more business opportunities and increase your marketplace visibility through a HKSAR Government endorsed e-platform?

This workshop aims at transferring the skills to Independent Software Vendors (ISVs) on how to connect to the DTTN (Digital Trade and Transportation Network) and develop its compatible solutions to their target customers. Also, you will know how to extend your existing solution to become DTTN enabled by using open source technologies from Sun Microsystems.

DTTN is a HKSAR Government endorsed, open and secure e-platform for trade document exchange in the trading, logistics and finance industry. It serves an extensive community comprises sellers, buyers, freight forwarders, carriers, terminals, banks, insurances institutions, inspection companies and the Government.

Who should participate?

- Management from IT company, Software Providers, Supply Chain Solution Consultants

Why connect to DTTN?

- Enhance your solution's comprehensiveness
- Create business demands through DTTN platform
- Certified to be "DTTN-enabled" partners and being awarded with the Compliance Certificate.
- Invited to participate and demonstrate your solution through the selected DTTN workshops and seminars.
