

Technology Showcase

- Opened throughout the full-day conference
- FREE and open to all attendees who have pre-registered to the event

Technology showcase at a glance

IoT in Food Quality and Supply Chain

- Food safety information platform
- Cold chain applications
- Sensor-integrated active RFID technologies for food industry
- Cross-border goods supervision service platform

IoT in Healthcare

- RFID traceability for risk management in hospital
- Asset management solution for hospital
- RFID technologies for baby and children patient care

IoT for Gov/NGO and Industry

- E-Lock-based enabling technology for container cargo transshipment process
- RFID and sensor-based productivity enhancement system for government and industry

Supply Chain/RFID Technologies

- Low-cost versatile tracking device for logistic applications
- Service platform for PRD waterway logistics operators
- Lightweight RFID reader chip for NFC and mobile applications
- RFID tagging and packaging technology
- RFID-based real time shop-floor information infrastructure for manufacturing companies

Funding Organization:

Hong Kong R&D Centre for Logistics and Supply Chain Management Enabling Technologies
Room 202, Level 2, Block B, Cyberport 4, 100 Cyberport Road, Hong Kong
香港物流及供應鏈管理應用技術研發中心 - 香港數碼港道100號數碼港4 B座2樓202室
